CIARA workstations

CIARA offers high-performance workstations that are designed to target the most demanding CAD, CAE, 3D rendering and post-production software. The KRONOS workstations are purpose-built, quiet, energy-efficient and optimized to increase profitability as well as workflow productivity.

Design for professionals

The Kronos 540-G4 Workstation is designed for professionals in AI training, deep learning, animation, 3D rendering or media production. Featuring expandable graphics, extensive storage, impressive connectivity and exceptional overall performance and reliability, The Kronos 540-G4 is the ideal solution for creative professionals. It includes centralized management software, so it is also an efficient and cost-effective option for IT administrators.

ECC Memory Support

Designed for creative professionals who require outstanding performance, reliability and enhanced security, The Kronos 540-G4 workstation is powered by the latest AMD Ryzen™ 7000, 8000 or 9000 Series processors for always-on usage scenarios and supports ECC memory to automatically detect and correct data corruption, reducing the chance of system crashes to ensure workstation stability.
